25X1 1. At Warnemuende there are currently five Soviet speedboats
 25X1 Several small Soviet craft have
 arrived at Rostock for compass regulation.

25X1 2. At Wisman, Soviet freighters loaded 40 Diesel engines from
Buckau Wolff. They also loaded lathes and milling machines,
25X1 with medical stores and bandages for Korea.

25X1 3. Large quantities of the best quality of Dobbelmann tobacco
are being smuggled into Rostock [] and
25X1 distributed to Berlin and Saxony. Some machinery for
packing fish is also being smuggled in []

25X1 4. Six drifters were delivered to Soviet crews by the
Stralsund Volkswerft on 3 March. Trawlers [redacted]
25X1 [redacted] have completed their trials and are ready for
delivery. Their screws make 480 r.p.m. at top speed
25X1 and 150 r.p.m. at the slowest. The first quartermaster
[redacted] is Karl Settich, [redacted]
25X1 the second quartermaster is Karl Loggenritz. The captain
[redacted] is Otto Schill [redacted] The first
25X1 quartermaster is Schulz (fnu), formerly captain of US 2

Trawler [] has been launched, but her machinery has not yet been installed. The salvage ship "Polar," formerly "Bremen" is to be ready before the end of the month. The new basin is being dredged to a depth of 12 m.

5. Three tugs of 400 hp each are to be delivered to the Soviets from Rosslau at the end of March or the beginning of April. A freighter of 600 tons with two 300 hp Buckau-Wolff engines is being built for the Soviet Union.

6. The See Polizei salvage ship Berger I is permanently stationed at Sassnitz. Her captain is Krueger (fnu) [redacted]. A strong wind drove the cutters [redacted] out of the harbor; both were wrecked on the shore between Sassnitz and Prorer. The helmsman [redacted] mistook the Arkona lighthouse for that at Dornbusch and ran the ship hard aground. It was pulled off on 23 February.

7. At Wolgast the six KS boats from the Engelbrecht yard were taken over by the See Polizei [redacted]. The commanders of these craft came from the officers' school at Parow. The top speed of the boats is 22.5 knots. Experiments are being conducted [redacted] near Sassnitz on 21 February and tore her bottom between frames 11 and 15. The craft reached the entrance of Sassnitz harbor under her own power, and was then salvaged. Her captain was arrested.

8. The minelayer "Fuerstenberg" left the Stralsund Volkswerft on 27 February for her trials. Her speed by no means corresponded to the power developed by her two 300 hp Buckau-Wolff engines, and it is believed the trouble lies in her screws. Picket boat [redacted] is also in for overhaul, to have her hull strengthened and the mountings for her engines replaced. The training cutter of the Parow See Polizei School does not have, as previously reported two 300 hp engines, but two 100 hp Buckau-Wolff machines. At present, courses in torpedo firing are being given aboard this ship. The See Polizei now have 18 KS boats, 5 picket boats, 1 training cutter, 1 tanker, 1 KS training boat, 1 cable ship, 1 M boat, 1 salvage vessel, 1 former fishing cutter and 2 wooden cutters, besides the sailing yacht "Hirondelle." The ships "Wismar" and "Dorsch" are under construction.
